## NEW HP Sheet Information

Males Technical Support is pleased to announce a new high pressure seat (#46201541) for the 1ST stage. This seat is designed for optimal performance in combination with the #46201575 TRI Material Poppet 2K18 and is already incorporated into the 1ST stage currently in production. The previous sheet (#46186216) and the new sheet (#46201541) have a different tip diameter. (see photo)

### NEW1 ST stage poppet Code No.

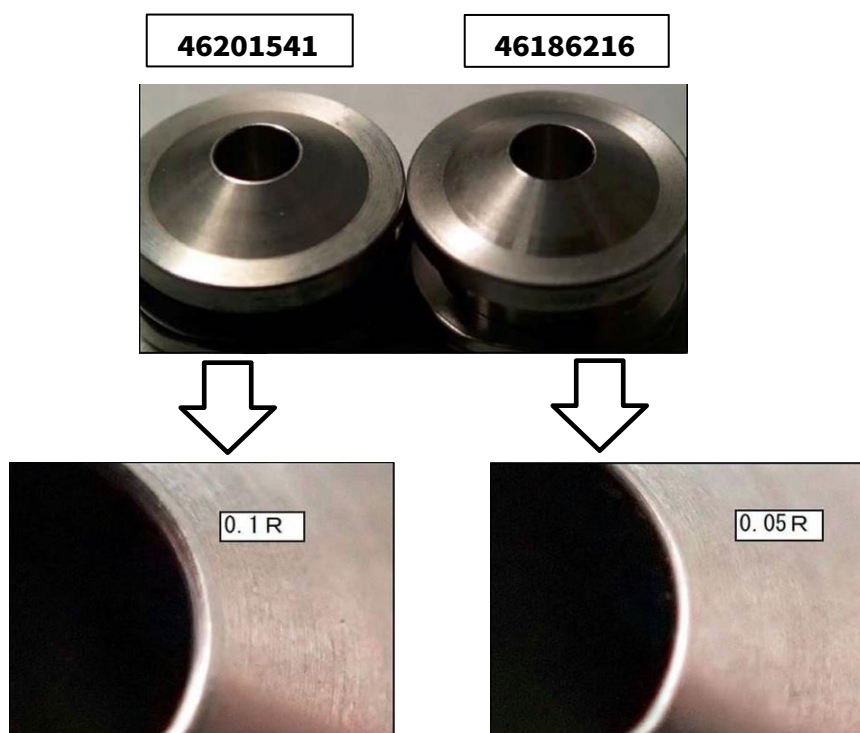

**Conventional**

**46186216 Poppet sheet (MR series)**

**→New NEW**

**46201541HP Sheet (MR)**

\*The conventional product shown above (part no. 46186216) can be used without modification with 46201575 TRI Material Poppet 2K18.

This new sheet will also work with conventional high pressure poppets (46201361 ACT poppet, 46200652 TRI material poppet). (However, ABYSS NAVY II should use 46186216 per US Navy standards.)
