SECTION 201. Basis of Dutiable Value. — Whenever an imported article is subject to an ad valorem rate of duty, the duty shall be assessed upon the market value or price at which, at the time of exportation, the same, like or similar article is freely offered for sale in the principal markets of the exporting country for exportation to the Philippines, in the usual wholesale quantities and in the ordinary course of trade (excluding internal excise taxes to be remitted or rebated), plus ordinary expenses prior and incidental to the lading of such article on board the vessel or aircraft at the port of export (including taxes or duties, if any) and freight paid as well as insurance premium paid covering the transportation of such article to the port of entry in the Philippines.

When the value of the article cannot be ascertained in accordance with the preceding paragraph, the value shall be the domestic wholesale market value or selling price of the same, like or similar imported article in the principal market of the Philippines on the date of exportation of the article under appraisement, in the usual wholesale quantities and in the ordinary course of trade, minus the import duty and other taxes as well as a commission not exceeding six per centum if any has been paid or contracted to be paid on goods secured otherwise than by purchase, and profits not to exceed eight per centum and a reasonable allowance for general expenses not to exceed eight per centum on purchased goods, and all other expenses incidental to the delivery from the port of importation to the principal market in the Philippines.

SECTION 202. Bases of Dutiable Weight. — On articles that are subject to specific rate of duty, based on weight, the duty shall be ascertained as follows:

public in usual retail quantities: Provided, That when articles are packed in single container, the weight of the latter shall be included in the legal weight.

c. When articles are dutiable by the net weight, the dutiable weight thereof shall be only the actual weight of the articles at the time of importation, excluding the weight of the immediate and all other containers, holders or packing in which such articles are contained, held or packed.

d. Articles affixed to cardboard, cards, paper, wood or similar common material shall be dutiable together with the weight of such holders.

The titles of schedules, chapters and subchapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings or subheadings and any relative schedule or chapter notes and, provided such headings, subheadings or notes do not otherwise require, according to the succeeding rules.

RULE 2. Any reference in a heading or subheading to a material or substance shall include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to articles of a given material or substance shall include a reference to articles consisting wholly or partly of such material or substance. The classification of articles consisting of more than one material or substance shall be according to the principles of Rule 3.

RULE 3. When articles are, prima facie, classifiable under two or more headings or subheadings, classification shall be effected as follows:

a. The heading or subheading which provides the most specific description shall be preferred to any other heading or subheading providing a more general description.

b. c. When articles cannot be classified by reference to “a” or “b” they shall be classified under the heading or subheading which provides the highest rate of duty.

RULE 4. Where in a note to a schedule or chapter it is provided that certain articles are not covered by that schedule or chapter a reference being made to another schedule or

chapter or to a particular heading or subheading, the note shall, unless the context requires otherwise, refer to all the articles falling within that other schedule or chapter or heading or subheading notwithstanding that only certain of those articles are referred to by description in the note.

RULE 5. When dutiable and duty-free articles or those dutiable at different rates are packed together or mingled in such manner that the value of each class of such article cannot be readily determined by the officials of the Bureau of Customs, all such articles shall pay duty at the rate applicable to that article in the package which is subject to the highest rate of duty, unless the importer or consignee segregates such article at his own risk and on his account, under the supervision of customs officials, within fifteen days after the acceptance of import entry covering same, and before delivery, in order that the value of each article may be determined.

RULE 6. In classifying manufactured products, no account shall be taken of the following:

- a. Insignificant parts of composite goods, in particular such as are used solely for mounting or connecting separate parts (e.g., nails, rivets, screws, washers, gaskets, locks, clamps, eyelets, clasps, hinges, bolts, cornerpieces, bands, threads, strings, beltings, straps, ropes);
- b. Negligible processing, refinement and decorations;

RULE 8. Unless otherwise provided for, the separate parts and unassembled pieces of articles which normally consist of various component parts, shall be classified as complete articles, when imported together by the same importer, owner or consignee from the same seller or shipper on the same vessel or vehicle. The absence of certain non-essential parts does not affect the application of this provision.

RULE 9. Accessories and spare parts shall be classified with the articles with which they are imported, when, by their character and quantity, they correspond to such articles and when they are usually sold together with them and are included in the price of such article.

RULE 10. Cases, boxes, caskets, sheaths and the like, of normal type (e.g., such as are used for cutlery, binoculars, microscopes, watches, musical instruments, weapons, sport goods) imported with the corresponding articles, shall be classified as such articles; if imported separately, they shall be classified under the corresponding heading or subheading of this Code.

RULE 11. No duties shall be assessed on account of the usual coverings or holdings of articles dutiable otherwise than ad valorem, nor those free of duty, except as in this Code expressly provided, but if there be used for covering or holding imported articles, whether dutiable or free, any unusual article, form or material adapted for use otherwise than in the bona fide preservation or transportation of such article to the Philippines, such covering or holding shall be classified under the corresponding heading or subheading of this Code.

RULE 12. When the interior container or packing of any article dutiable by weight is of an unusual character, such container or packing shall be classified under the corresponding heading or subheading of this Code.

RULE 13. When an article falling within a heading or subheading is subject to ad valorem or specific rate of duty, it shall be subject to either the ad valorem or the specific rate of duty whichever is higher.

RULE 14. Unless otherwise provided for, the term “used” or any provision indicating designation by use, for the purpose of classification and taxation of articles shall mean the chief or predominant use of such articles notwithstanding any fugitive or incidental use to which such articles may be subjected.

RULE 15. Articles not falling within any heading or subheading of this Code shall be classified under the heading or subheading appropriate to articles to which they are most akin.

SECTION 204. Rate of Exchange. — For the assessment and collection of import duty upon imported articles and for other purposes, the value and prices thereof quoted in foreign currency shall be converted into the currency of the Philippines at the current rate of exchange or value specified or published, from time to time, by the Central Bank of the Philippines.

SECTION 205. Effective Date of Rates of Import Duty. — Imported articles shall be subject to the rate or rates of import duty existing at the time of entry, or withdrawal from warehouse in the Philippines, for consumption.

On and after the day when this Code shall go into effect all articles previously imported, for which no entry has been made, and all articles previously entered without payment of duty and under bond for warehousing, transportation, or any other purpose, for which no permit of delivery to the importer or his agent has been issued, shall be subject to the rates of duty imposed by this Code and to no other duty, upon the entry, or withdrawal thereof from warehouse, for consumption.

On articles abandoned or forfeited to, or seized by, the government, and then sold at public auction, the rate of duty and the tariff in force on the date of the auction shall apply: Provided, That duty based on the weight, volume and quantity of articles shall be levied and collected on the weight, volume and quantity at the time of their entry into the warehouse or the date of abandonment, forfeiture and/or seizure.

3. Ascertain the difference, if any, between the purchase price or, in the absence thereof, the exporter's sales price, and the fair value of the article. The Commission shall submit its findings to the Secretary within one month after receipt of the aforesaid advice.

c. The Secretary shall, within fifteen days from the report of the Commission, decide whether the article in question is being imported in violation of this section and shall give due notice of such finding and shall direct the Commissioner of Customs to cause the dumping duty, to be levied, collected and paid, as prescribed in this section, in addition to any other duties, taxes and charges imposed by law on such article.

d. The "dumping duty" as provided for in subsection "e" hereof shall be equal to the difference between the purchase price or, in the absence thereof, the exporter's sales price, and the fair value of the article.

1. The "fair value" of an article shall be its foreign market value, or, in the absence of such value, its cost of production.

2. The "purchase price" of an imported article shall be the price at which such article has been purchased or agreed to be purchased, prior to the time of exportation, by the person by whom or for whose account the article is imported, plus, when not included in such price —

In the ascertainment of foreign market value for the purpose of this section, no pretended sale or offer for sale, and no sale or offer for sale intended to establish a fictitious market, shall be taken into account.

5. The “cost of production” of an imported article shall be the sum of —

(2) If the article has been previously released under bond, as provided in subsection “g” hereof, the party concerned shall be required to pay the corresponding dumping done in addition to any other duties, taxes and charges, if any.

j. Any investigation to be conducted by the Commission under this section shall include a hearing or hearings where the owner, importer, consignee or agent of the imported article, the local producers of a like article, other parties directly affected, and such other parties as in the judgment of the Commission are entitled to appear, shall be given an opportunity to be heard and to present evidence bearing on the subject matter.

k. It shall be the duty of collectors of customs at all ports of entry to levy and collect the dumping duty in accordance with subsection “d” hereof on the specific kind or class of article as to which the Secretary has made a decision of dumping.

It shall also be their duty to bring to the attention of the Secretary, thru the Commissioner of Customs, any case coming within their notice which may, in their opinion, require action as provided in this section.

l. The Secretary shall promulgate all rules and regulations necessary to carry out the provisions of this section.

SECTION 302. Countervailing Duty. —

a. On articles dutiable under this Code, upon the production, manufacture or export of which any bounty, subsidy or subvention is directly or indirectly granted in the country of origin and/or exportation, and the importation of which has been determined by the Secretary, after investigation and report of the Commission, as likely to materially injure an established industry, or prevent or considerably retard the establishment of an industry in the Philippines, there shall be levied a countervailing duty equal to the ascertained or estimated amount of such bounty, subsidy or subvention: Provided, That the exception of any exported article from a duty or tax imposed on like articles when destined for consumption in the country of origin and/or exportation or the refunding of such duty or tax, shall not be deemed to constitute a grant of a bounty, subsidy or subvention within the meaning of this section; however, should an article be allowed drawback by the country of origin and/or exportation, only the ascertained or estimated excess of the amount of the drawback over the total amount of the duties and/or internal taxes, if any, shall constitute a bounty, subsidy or subvention.

b. The Commission, on its own motion or upon application of any interested party, when in its judgment there is good and sufficient reason therefor, shall ascertain, determine or estimate the net amount of such bounty, subsidy or subvention and shall transmit to the Secretary the amounts so ascertained, determined or estimated, if any. Wherever it is ascertained that the conditions which necessitated the imposition of the countervailing duty have ceased to exist, and the Commission shall so certify to the Secretary, the latter shall take the necessary steps to suspend or discontinue the imposition of such duty.

c. The Secretary shall make all rules and regulations necessary to carry out the provisions of this section.

SECTION 303. Marking of Imported Articles and Containers. —

a. Marking of Articles. — Except as hereinafter provided, every article of foreign origin (or its container, as provided in subsection “b” hereof) imported into the Philippines shall be marked in any official language of the Philippines and in a conspicuous place as legibly, indelibly and permanently as the nature of the article (or container) will permit in such manner as to indicate to an ultimate purchaser in the Philippines the name of the country of origin of the article. The Commissioner of Customs shall, with the approval of the department head, issue rules and regulations to —

(1) Determine the character of words and phrases or abbreviations thereof which shall be acceptable as indicating the country of origin and prescribe any reasonable method of marking, whether by printing, stenciling, stamping, branding, labeling or by any other reasonable method, and a conspicuous place on the article or container where the marking shall appear;

(2) Require the addition of any other words or symbols which may be appropriate to prevent deception or mistake as to the origin of the article or as to the origin of any other article with which such imported article is usually combined subsequent to importation but before delivery to an ultimate purchaser; and

(3) Authorize the exception of any article from the requirements of marking if —

(a) Such article is incapable of being marked;

(b) Such article cannot be marked prior to shipment to the Philippines without injury;

(c) Such article cannot be marked prior to shipment to the Philippines, except at an expense economically prohibitive of its importation;

(d) The marking of a container of such article will reasonably indicate the origin of such article;

(e) Such article is a crude substance;

(f) Such article is imported for use by the importer and not intended for sale in its imported or any other form;

(g) Such article is to be processed in the Philippines by the importer or for his account otherwise than for the purpose of concealing the origin of such article and in such manner that any mark contemplated by this section would necessarily be obliterated, destroyed or permanently concealed;

(h) An ultimate purchaser, by reason of the character of such article or by reason of the circumstance of its importation, must necessarily know the country of origin of such article even though it is not marked to indicate its origin;

(i) Such article was produced more than twenty years prior to its importation into the Philippines; or

(j) Such article cannot be marked after importation except at an expense which is economically prohibitive, and the failure to mark the article before importation was not due to any purpose of the importer, producer, seller or shipper to avoid compliance with this section.

b. Marking of Containers. — Whenever an article is excepted under subdivision (3) of subsection “a” of this section from the requirements of marking, the immediate container, if any, of such article, or such other container or containers of such article as may be prescribed by the Commissioner of Customs with the approval of the department head, shall be marked in such manner as to indicate to an ultimate purchaser in the Philippines the name of the country of origin of such article in any official language of the Philippines, subject to all provisions of this section, including the same exceptions as are applicable to articles under subdivision (3) of subsection “a”.

c. Marking Duty for Failure to Mark. — If at the time of importation any article (or its container, as provided in subsection “b” hereof), is not marked in accordance with the requirements of this section, there shall be levied, collected and paid upon such article a marking duty of 5 per cent ad valorem, which shall be deemed to have accrued at the time of importation, except when such article is exported or destroyed under customs supervision and prior to the final liquidation of the corresponding entry.

d. Delivery Withheld until Marked. — No imported article held in customs custody for inspection, examination or appraisalment shall be delivered until such articles and/or their containers, whether released or not from customs custody, shall have been marked in accordance with the requirements of this section and until the amount of duty estimated to be payable under subsection “c” of this section shall have been deposited. Nothing in this section shall be construed as excepting any article or its container from the particular requirements of marking provided for in any provisions of law.

e. The failure or refusal of the owner or importer to mark the articles as herein required within a period of thirty days after due notice shall constitute as an act of abandonment of said articles and their disposition shall be governed by the provisions of this Code relative to abandonment of imported articles.

SECTION 304. Discrimination by Foreign Countries. —

a. The President, when he finds that the public interest will be served thereby, shall by proclamation specify and declare new or additional duties in an amount not exceeding 50 per cent of the existing rates as hereinafter provided upon articles wholly or in part the growth or product of, or imported in a vessel of, any foreign country whenever he shall find as a fact that such country —

(1) Imposes, directly or indirectly, upon the disposition in, or transportation in transit through or re-exportation from such country of any article wholly or in part the growth or product of the Philippines any unreasonable charge, exaction, regulation or limitation which is not equally enforced upon the like articles of every foreign country; or

(2) Discriminates in fact against the commerce of the Philippines, directly or indirectly, by law or administrative regulation or practice, by or in respect to any customs, tonnage, or port duty, fee, charge, exaction, classification, regulation, condition, restriction or prohibition, in such manner as to place the commerce of the Philippines at a disadvantage compared with the commerce of any foreign country.

b. If at any time the President shall find it to be a fact that any foreign country has not only discriminated against the commerce of the Philippines, as aforesaid but has, after the issuance of a proclamation as authorized in subsection “a” of this section, maintained or increased its said discriminations against the commerce of the Philippines, the President is hereby authorized, if he deems it consistent with the interests of the Philippines, to issue a further proclamation directing that such product of said country or such articles imported in its vessels as he shall deem consistent with the public interests, shall be excluded from importation into the Philippines.

c. Any proclamation issued by the President under the authority of this section shall, if he deems it consistent with the interests of the Philippines, extend to the whole of any foreign country or may be confined to any subdivision or subdivisions thereof; and the President shall, whenever he deems the public interests require, suspend, revoke, supplement or amend any such proclamation.

d. All articles imported contrary to the provisions of this section shall be forfeited to the Government of the Philippines and shall be liable to be seized, prosecuted and condemned in like manner and under the same regulations, restrictions and provisions as may from time to time be established for the recovery, collection, distribution and remission of forfeiture to the government by the tariff and customs laws. Whenever the provision of this section shall be applicable to importations into the Philippines of articles wholly or in part the growth or product of any foreign country, they shall be applicable thereto whether such articles are imported directly or indirectly.

e. It shall be the duty of the Commission to ascertain and at all times to be informed whether any of the discriminations against the commerce of the Philippines enumerated in subsections “a” and “b” of this section are practiced by any country; and if and when such discriminatory acts are disclosed, it shall be the duty of the Commission to bring the matter to the attention of the President, together with recommendation.

The Commission shall render a report thereof to the President, through the National Economic Council, within three months after the motion, request, resolution or application was received.

Should the Commission find that the representations made in accordance with the preceding paragraph are justified, it shall recommend to the President, through the National Economic Council the withdrawal or modification of the concession, its suspension in whole or in part, or the establishment of import quota which shall not be less than ten per centum or more than one hundred per centum of the average annual quantity imported or, in the absence thereof, the average annual value of such importation, during the three calendar years immediately preceding the date such quota is fixed, to the extent and for the time necessary to prevent or remedy such injury.

SECTION 807. When Control is Deemed not Held by Citizens of the Philippines. — It shall not be considered that seventy-five per centum of the capital stock of a corporation is held by citizens of the Philippines: (a) if the certificates of seventy-five per centum of the capital stock are not held by such citizens and such certificates are subject to some trust or other fiduciary obligation in favor of a person not a citizen of the Philippines; (b) if seventy-five per centum of the stock of said corporation entitled to vote is not in the hands of citizens of the Philippines; (c) if by means of some contract or agreement more than twenty-five per centum of the stock in such corporation can be voted directly or indirectly in favor of any person not a citizen of the Philippines; or (d) if by any other means, the control of any interest in the corporation in excess of twenty-five per centum has been conferred upon or is allowed to be exercised by any person not a citizen of the Philippines.

SECTION 811. Investigation Into Character of Vessel. — No application for a certificate of Philippine registry shall be approved until the Collector is satisfied from an inspection of the vessel that it is engaged or destined to be engaged in legitimate trade and that it is

of domestic ownership as such ownership is defined in section eight hundred and six hereof.

A Collector may at any time inspect a vessel or examine its owner, master, crew or passenger in order to ascertain whether the vessel is engaged in legitimate trade and is entitled to have or retain the certificate of the Philippine registry.

The Collector may at any time make an administrative investigation as to the ownership or title of any vessel engaged in the coastwise trade and whether such title or ownership is in accordance with the requirements of law; and any vessel sold, transferred or mortgaged to any person not a citizen of the Philippines without previous approval of the President of the Philippines, or leased or chartered to any citizen or national of a country with which the Philippines has no diplomatic relations, or put under foreign registry or flag without such approval, or operated in violation of any of the provisions of this Code, shall be seized by the Government of the Republic of the Philippines; and any person, corporation, company or association violating any of the provisions of this section shall be guilty of a misdemeanor and be punished by a fine of not more than five thousand pesos or imprisonment for not more than five years, or both: Provided, That in the event the person guilty of such violation is a corporation, company or association, the manager or, in his default, the president thereof shall be criminally responsible for such violation.

Such license shall be in such form as the Commissioner shall prescribe. Such vessels shall have their name and port of registration placed on some conspicuous portion of their hulls, and in all respects be subject to the laws of the Philippines, and shall be liable to seizure and forfeiture for any violation of these provisions.
