The Sportsways Waterlung Sea-Vue Gauge . . . Newer & Better Than Ever Before

Since this article appeared in Skin Diver Magazine, Sportsways has been working on a constant series of design improvements for the Sea-Vue Gauge. These have resulted in a new swivel connection for easier underwater read-outs and a granting of U.S. Patent #3,528,290.

The Sea-Vue Gauge is your best underwater pressure gauge buy and it's available only from Sportsways, the "All-American Diving Line".
